

THE PROFESSOR RON JOHNSTON

HUMANITARIAN INNOVATION AWARDS

How can technology and innovation solve the world's biggest humanitarian issues?

Join us to find out through a new series of humanitarian innovation events in Australia. **Be part of the solution and win!**

Humanitarian Innovation

PITCH—

Grab your team, select a real-world humanitarian problem and submit your solution. Your team could win \$2,500, entry to our Hackathon in August 2019 and much more!

Submissions close: 31 May 2019

Humanitarian Innovation

HACKATHON

The Humanitarian Innovation Hackathon is a weekend-long event, taking place in Sydney, NSW. This event is designed for university students to work collaboratively in cross-discipline teams to create technology-driven solutions for pressing humanitarian challenges.

Taking place: 16-18 August 2019
